

GREEN CONCEPT & SOLUTIONS

GREEN CONCEPT & SOLUTIONS

Myzip begins a new chapter in his life after becoming aware of the countless environmental disasters that afflict Earth every day.

We will strive to reduce our environmental impact as much as possible in the company.

The changes will take place soon within our offices starting to put new bins for separate waste sorting for each desk, our coffee machines will use recycled and recyclable paper cups, sanitizing gels and restroom soaps will also be made from only natural ingredients not tested on animals and packaged from 100% recyclable and recycled materials.

The collection of zippers that we offer includes a selection of zippers called "green", because they are made of recycled and organic cotton ribbons, we also use recycled paper and recycled organic cotton fibers bags to ship our samples.

Myzip believes that by making these small efforts, great results can be achieved in looking to a better future, where the Earth will be healthy and green again.

GREEN CONCEPT & SOLUTIONS

Considering global warming , deforestation of green reserves and numerous other environmental and climate changes, Myzip has decided to start a strong policy to reduce impact on nature.

One important step is using recycled and recyclable paper bags to place and deliver zip samples and proto.

Myzip envelope has been designed to be as green as possible.

It's made of kraft paper and 100% recycled cotton fibers and it can be disposed.

Remember:

"There are no passengers on the 'Land Boat'.
We are all members of the crew ».

Marshall McLuhan
